Dear sir,

I write to express my concerns with the proposed settlement. I do not believe that the Proposed Final Judgement as it stands will have any significant effect on Microsoft's anti-competitive practices. I'd like to endorse Dan Kegel's open letter and analysis of the PFJ, which you may find at <http://www.kegel.com/remedy/letter.html> and <http://www.kegel.com/remedy/remedy2.html> respectively.

Thank you,
